Two of my biggest passions are problem solving and creativity. That's why I feel in love with coding, because it's a perfect combination of those elements. I love being able to bring my excitement for development, and life in general, to every project I work on!

## TECHNICAL SKILLS
**LANGUAGES:** Python, C#, Javascript, HTML, CSS
**FRAMEWORKS:** Django, Flask, ASP.NET Core, Vue, Angular, Express
**DATABASES:** MySQL, SQLite, PostgreSQL, MongoDB
**OTHER:** jQuery, Bootstrap, Github

## DEVELOPMENT EXPERIENCE
**Creative Coding** - *Teaching Assistant* **(2017-present)**
Teaching elementary school age kids coding fundamentals and helping them make their visions come to life with code. Includes working one-on-one with students and guiding them to find solutions to their bugs.

**Coding Dojo** - *Full Stack Web Development* **(2017)**
Completed an immersive 14-week web development program with 1000+ hours spent learning and building web applications using Python, C#, and MEAN. Achieved black belt in Python and C#.

## PROJECTS
**Photography Portfolio**- *JavaScript, Vue, Node, Express, MongoDB, HTML, CSS*
Photography Portfolio is a place for a photographer to promote themselves to clients and an opportunity for me  to work on a front-end heavy project. It features lots of images and a responsive design, along with an admin page for the owner to upload photos to albums.

**The Movie Log** - *C#, ASP.NET Core, MySQL, jQuery, Bootstrap*
The Movie Log is a web app designed for users to be able to keep track of movies they like and want to watch by creating lists and add movies to them. It utilizes The Movie Database API,  CRUD functionality, user profiles, and login and registration.
